

NexaCore Benefits Policy

Version 1.8 | India Employee Benefits

Owner: People Operations Effective: 01 Aug 2026 Review: 31 Jul 2027

1. Benefits Program Overview

Effective 01 Aug 2026. The program below is synthetic company data designed for private RAG testing.

Benefit	Coverage / value	Eligibility	Enrollment timing
Medical insurance	Employee + declared dependents; INR 5 lakh base	Full-time employees	Within 30 days of joining
Top-up medical	INR 10 lakh optional top-up	Full-time employees	Annual enrollment
Life cover	3 × annual fixed pay; cap INR 50 lakh	Full-time employees	Automatic
Accident cover	INR 25 lakh	Employees + approved contractors	Automatic
Meal allowance	INR 2,200/month	Eligible India employees	Payroll
Learning wallet	INR 30,000/FY	L2+ and confirmed employees	Manager-approved
Wellness allowance	INR 6,000/FY	Confirmed employees	Reimbursement

1.1 Eligibility principles

- Benefits eligibility is determined by employment status, location and the specific benefit rule.
- Contractors do not receive employee insurance unless their contract explicitly includes an approved coverage arrangement.
- Dependent additions require documentary evidence and must be completed during the defined enrollment window except qualifying life events.
- Benefits do not create a separate employment entitlement beyond the written plan terms.

1.2 Annual benefit cycle

The standard plan year runs 01 April–31 March. Annual enrollment normally opens for 10 calendar days in March. Employees who do not make an election during the window retain the default medical plan and automatic life/accident coverage where applicable.

2. Medical and Insurance Administration

2.1 Medical plan structure

Tier	Base cover	Room limit	Co-pay
Employee only	INR 5,00,000	Single private room	10% for selected non-network claims
Employee + spouse	INR 5,00,000	Single private room	10% for selected non-network claims
Family	INR 5,00,000	Single private room	10% for selected non-network claims
Senior dependent add-on	Separate declared limit	As plan schedule	As insurer schedule

2.2 Claims process

- Cashless hospitalization should use an insurer-network facility where available.
- For reimbursement, claim documents should normally be submitted within 30 calendar days of discharge.
- Incomplete claims may be returned for clarification; the original submission date is retained in the claims record.
- People Operations can assist with eligibility and insurer escalation but does not determine medical admissibility.

2.3 Life and accident coverage

Life coverage is calculated as three times annual fixed pay, capped at INR 50 lakh. Accident coverage is INR 25 lakh. Coverage changes following compensation changes are reflected at the next insurer file refresh unless the plan administrator requires an immediate update.

2.4 Nominee management

Employees are expected to maintain nominee information in the benefits portal. A nominee record is not the same as an employee's dependent record; each is maintained for a different administrative purpose.

3. Learning, Wellness and Professional Development

3.1 Learning wallet

Expense type	Annual cap	Approval	Evidence
Certification exam	INR 20,000	Manager	Invoice + result/attempt proof
Technical course	INR 30,000	Manager	Invoice + completion proof
Conference	INR 25,000	Manager + function head	Registration + attendance
Books / technical material	INR 8,000	Manager	Invoice
Language / communication	INR 12,000	Manager	Invoice + completion

3.2 Wellness allowance

- Annual allowance: INR 6,000 per confirmed employee.
- Eligible categories include fitness membership, structured wellness programs and approved ergonomic assessments.
- Claims must be submitted within 45 days of the transaction date.
- The allowance is not convertible to cash and unused balance does not roll forward.

3.3 Development planning

Managers should link learning spend to a role capability, upcoming project need or documented development goal. For L4+ employees, learning requests above INR 20,000 should identify the expected business outcome or capability gap.

3.4 Approval examples

Example: an L3 engineer requests INR 18,500 for an approved cloud certification. The manager can approve if budget remains. An INR 28,000 conference registration requires manager and function-head approval. A request submitted after the employee's exit date is not eligible.

4. Family, Leave-Linked and Employee Assistance Benefits

4.1 Parental and family support

- Eligible employees may access statutory and company-provided parental benefits subject to applicable law and plan documentation.
- Benefit administration uses the HRIS employment record and approved supporting documents.
- A qualifying life event such as marriage, birth, adoption or loss of dependent may create a special enrollment window.
- Special enrollment requests should normally be raised within 30 calendar days of the event.

4.2 Employee assistance program

The company funds up to 6 confidential counselling sessions per employee per benefit year through the approved provider. Usage details are not shared with line managers. Administrative reporting is limited to aggregate utilization metrics and invoice reconciliation.

4.3 Caregiver support

Support	Annual entitlement	Use case
Caregiver flexibility	Up to 10 working days	Temporary care responsibility
Emergency family leave	Up to 3 working days	Urgent family event
Ergonomic assessment	1 assessment/FY	Workstation or work setup
Dependent documentation support	Case-based	Insurance / statutory administration

4.4 Privacy

Benefits data may include health and dependent information. Access is restricted to People Operations benefits administrators and approved vendors. Managers receive only the information needed to administer leave or workplace accommodations.

5. Allowances, Reimbursements and Tax Treatment

5.1 Monthly allowances

Allowance	Monthly value	Payroll treatment	Notes
Meal	INR 2,200	As applicable	Processed with monthly payroll
Internet	INR 1,500	As applicable	Remote-eligible roles
Mobile	INR 800	As applicable	Approved customer/support roles
Learning	Annual pool	Reimbursement	Not monthly cash
Wellness	Annual pool	Reimbursement	No rollover

5.2 Submission deadlines

- Monthly payroll-impacting benefit declarations should reach HR by the published payroll cutoff, normally the 18th calendar day.
- Reimbursement claims should be submitted within 45 days unless the specific plan states a shorter period.
- Claims with missing invoices, altered documents or unclear merchant details may be rejected or returned for clarification.
- Employees are responsible for retaining original documents where tax or statutory rules require them.

5.3 Benefit changes during employment

Promotion, transfer, location change or employment-status change can alter benefit eligibility. People Operations reviews eligibility during the HRIS change workflow. A benefit should not be assumed to continue solely because it was available before a transfer.

6. Administration, Escalation and Annual Review

6.1 Service levels

Request	Target response	Escalation after
Enrollment correction	2 business days	3 business days
Claim document clarification	2 business days	4 business days
Dependent addition	3 business days	5 business days
Insurance escalation	1 business day	3 business days
Payroll benefit correction	2 business days	4 business days

6.2 Exceptions

Exceptions require a written business or employee-welfare rationale, a defined amount or duration, and an approval owner. Repeated exceptions are reviewed quarterly to determine whether a policy change is warranted.

6.3 Program metrics — FY26 internal snapshot

Metric	FY26 value
Employees enrolled in medical plan	142
Medical claims submitted	317
Average reimbursement turnaround	5.6 business days
Learning-wallet utilization	68.4%
Wellness-wallet utilization	54.1%
EAP aggregate utilization	12.7%
Benefit-ticket SLA attainment	93.2%
